The UNT WISE College WISE Summer Program assists young adults with disabilities, ages 14-22, to develop the vocational skills, independent living skills, and social & recreation skills that are needed in pursuing a post-secondary education. College WISE is a one (1) week program for participants interested in understanding the expectations and demands of attending a community college or four-year university. Overnight accommodations in campus housing are provided and public transportation will be utilized for travel around campus and the community. This program opens the door to the realities of community college and university life.
